### **DNF Security's High Performance IP Surveillance Solutions achieve Genetec Certification**

*DNF Security works with Genetec to optimize intelligent IP server and video management software (VMS) compatibility.*

**Hayward, CA – March 15, 2011 – [DNF Security](http://www.DNFSecurity.com)**, the leading provider of mission-critical IP surveillance solutions and a Dynamic Network Factory (DNF) business unit announces that its line of intelligent IP server and storage has been certified by top video management software (VMS) provider Genetec.

DNF Security's platforms have undergone through a series of extensive testing with Genetec's Omnicast VMS to ensure the highest in video surveillance support and deployment. This integration of the DNF's intelligent IP server platform with Genetec's advanced VMS users can expect a fully robust security system that is designed to take on most mission-critical surveillance requirements.

With multiple camera stream support, high-performance IP network, advanced video analytics, and optimized for full RAID-controlled storage capacities, DNF Security's and Genetec's solution compatibility will result in enhanced video manageability, scalability, and performance.

"We are pleased to work with Genetec to fully align our IP technologies to optimize the surveillance experience," says Mo Tahmasebi, DNF Security's President and CEO. "With our open-platform stance, DNF will continue to work with Genetec to provide our customers with open, flexible, and high performing IP surveillance solutions that meet their growing security needs."

For more information about DNF Security's Genetec Certification, contact DNF Security at (510) 265-1122 or visit us at ISC West 2011 (April 6 to 8, 2011), **Booth #LB6**.

### **About DNF Security**

DNF Security is a leading manufacturer of dependable, mission-critical video surveillance solutions. As a subsidiary of innovative storage and server manufacturer, Dynamic Network Factory (DNF), DNF Security leverages their advanced technologies by creating video surveillance solutions designed to handle the most complex video surveillance and physical security environments. The company offers a comprehensive range of video surveillance solutions including intelligent digital or hybrid video management systems, video management engines, mobile surveillance systems, viewing workstations, and scalable IP storage. In 2008, DNF Security was recognized top industry publisher Security Sales & Integration (SSI) Magazine as the "Top 30 Technology Innovator" of the year. With a focus on providing high quality, scalable and cost-effective IP Surveillance solutions, DNF Security continues to push the boundaries in the surveillance industry. For more information, please visit [www.DNFSecurity.com](http://www.DNFSecurity.com) or [www.DNFCorp.com](http://www.DNFCorp.com).
